Project #11352

D.E. Canbanana Custom Curved Banner Structure

Assembly Instructions		
Custom Curved Banner Structure:		
Part List:	Description	Quantity
	Tube Sections	2
	Curved Spreader Rods	7
	Fabric Cover	1

Cover Detail

FIG. 2

- Note: Follow the diagram at left.
 Note: Alpha-numeric labels.
1. Following the alpha-numeric labels, lay out connect tube sections to each other using buttons at points #1 & 2.
 2. Insert Curved Spreader Rods into their respective holes in tube sections.
 3. With clean hands and work area, remove fabric cover from storage bag, and install as shown (see fabric detail at bottom left). Zip closed, first along spreader rods, and then finally around the top perimeter of the structure. Note: Banner is under tension. Work carefully. Check for smooth and even banner surface.
- The custom curved banner structure is now ready for mounting.
